- More channels enjoyed with 20 DAB and 20 FM preset stations

Easy to use

- Auto time synchronisation ensures accurate time without fuss
- Large backlit LCD display for easy viewing in low light
- Built-in countdown timer for convenience in the kitchen
- Audio-in for easy portable music playback

Start the day your way

- Weekday/weekend alarm setting to complement your lifestyle
- Dual alarm to wake you and your partner at different times
- Gentle wake for a pleasant waking experience
- Sleep timer helps you to drop off to your favourite music

Contemporary retro design

- Contemporary reinterpretation of the iconic Philetta design

PHILIPS

Original radio mini
DAB+, FM Dual alarm, Kitchen timer, Audio-in, 3 W

Highlights

DAB+ and FM compatible

DAB+ and FM compatible for a complete radio experience

Auto time synchronisation

With the automatic time setting function in your clock radio, you do not ever have to set the time. The clock synchronises with radio signals automatically, even when it is switched off. It updates itself within one minute when there is an immediate need for adjustment, and makes routine synchronisations with radio signals to ensure it keeps accurate time always. From the first time you take the clock radio out of the box, to the time a power outage occurs, you can depend on your Philips product to give you the right time, fuss-free and reliably.

20 DAB & 20 FM preset stations

With 20 DAB and 20 FM preset stations, your favourite channels are always only the push of a few buttons away. To program a preset, simply tune into the desired station, then press and hold the preset button. This quick procedure allows the radio frequency to be automatically stored – for easy access whenever you like.

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Built-in countdown timer

This clock radio provides the best in convenience for everyday life. A built-in countdown timer helps keep an eye on what is being cooked, ensuring safety and well-prepared dishes. Now you can walk away from the stove or oven, and relax with a bit of TV, or do other chores around the home. Once the time is up, a buzzer will sound, reminding you that your meal is ready to be served.

Weekday/weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature,

OR2200M/10

allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient feature saves you from the hassle of fiddling with different alarm times every single night.

Dual alarm

The Philips audio system comes with two alarm times. Set one alarm time to wake you up and the other time to wake up your partner.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Specifications
