- Caution

The ToUcam FUN II packs a great performance webcam into a stylish housing to help you get the best from fast broadband Internet connection.

Flicker-free video up to 30 frames per second

Experience flicker-free on-line chatting and live video thanks to natural video with 30 frames per second refresh rate. No more unreal, jerky motion! Software is provided for recording and editing your clips.

Pin-sharp SVGA picture quality

Use the ToUcam FUN II as a digital camera and take sharp pictures with SVGA (800 x 600 pixel) resolution. Great for adding quality images to your web pages and documents. Software is provided for snapping, editing and archiving your photos.

Built-in digital microphone

The built-in digital microphone ensures impeccable soundtracks for your videos and perfect audio for on-line chatting. And forget about having to hang an external microphone on your monitor.

Perfect webcam for broadband Internet

With its high-resolution, full-motion video and high-quality audio capabilities, the ToUcam FUN II is an ideal webcam for taking full advantage of the speed and convenience of a broadband Internet connection. All the software you need for video conferencing and recording video mails is included.

“XP plug & play”

Windows XP users do not need to install any software. Just plug the ToUcam II to a free USB slot of your PC and you can start using any application under Windows XP.
