PHILIPS
sense and simplicity

Highlights

Play DVD, DVD+R and DVD+RW

The Philips player is compatible with most DVD and CD discs available in the market. DVD, DVD+R and DVD+RW discs - all of them can play on the player. DVD+RW is a shorthand term for a DVD drive that can accept the common recordable DVD format. Likewise, DVD+RW handles the common rewritable disc type.

DivX playback

With DivX support, you are able to enjoy DivX encoded videos in the comfort of your living room. The DivX media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, memory cards and DVD-video. DivX CDs can be played back on selected DVD players, DVD Recorders and Home Theater Systems.

MPEG4 playback

MPEG4 is a compression standard allows you to record movies at up to seven to 10 times smaller than the MPEG2 standard without compromising on the picture and sound quality. MPEG4 media can be saved on a CD-Rom, memory card or DVD disc and can be played back in selective DVD players, DVD recorder and Home theater systems.

16:9 widescreen format

Display and share your movies and digital photos with your friends and family. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A

native 16:9 aspect ratio means video display without bars at top and bottom of the picture and without the quality loss than comes from scaling, altering an image to fit on a different screen size.

Car adaptor and handy remote

Besides the car adaptor included for in-vehicle usage, you can also use the portable player to enjoy your DVDs at home by simply connecting it to your TV. Sit back and relax to your favorite DVDs by using the remote control provided to control the playback function.

2.5 hrs battery life for movie
