# Highlights

## DualPrecision Cutting

DualPrecision shaving heads of the electric shaver have slots to shave the normal hairs and holes to shave even the shortest stubble

## Fully washable shaver

Fully washable electric shaver with QuickRinse system rinses clean in less time

## 45+ shaving minutes

An energy-efficient, powerful lithium-ion battery gives you more shaves per charge. You'll have 45+ minutes of shaving time - that's around 15 shaves - after 8 hours of charging. Plug it in for 3 minutes and you'll have enough power for one shave.

## Flex & Float System

Flexing & floating heads follow the contours of your face, allowing for better contact with your skin and for catching more hairs, resulting in a closer, faster shave.
