# PHILIPS

# Highlights

## 802.11n adapter

Fast connection with 802.11n wireless adapter Up to 5 times faster than conventional Wi-Fi 802.11g. Based on the Wi-Fi 802.11n specifications.

## Wireless USB adapter for TV

Wireless USB adapter for your Philips TV\*. Insert into the TV and it will establish a Plug and play wireless connection of the TV via your router to your PC and/or the Internet.

## Wi-Fi MediaConnect

Share your videos and pictures from your laptop on the TV\* wirelessly. Once installed on your laptop operation is very easy. With a click of your mouse you share the whole of your laptop screen with the TV. Use the familiar media player in your laptop, or browse webpages via your favorite web browser. No more worries about file types, if your PC can play

it, your TV will show it\*. For your own enjoyment, and great fun to share with others.

## Play all PC files on your TV

Wi-Fi MediaConnect projects your PC screen on your TV via a WiFi connection. No more worries about file type restrictions, if your PC can play it your TV will show it\*.

## Net TV

Experience a rich selection of online services with Net TV\*. Enjoy movies, pictures, infotainment and other online content directly on your TV whenever you like. Simply connect your TV directly to your home network through the wireless connection provided by the USB adapter, and navigate to what you want to watch with the TV remote control. The Philips Net TV menu gives you access to popular Net TV services fitted for your TV screen. Additionally, with the DLNA certified PC network you can watch videos or access pictures stored on your computer using your TV remote control.

\* Net TV: Visit [www.philips.com/smarrttv](http://www.philips.com/smarrttv) to discover the services offering in your country.

\* Digital Rights Management (DRM) protected content is legally prohibited from export. The content protection on most DVD or Blu-ray Disc movies, as well as some internet sources may restrict watching the movie on TV, when playing on the PC.

\* Wi-Fi Media connect: The playback of video can be affected by your PC speed and Wi-Fi bandwidth. For minimum and recommended system requirements go to [www.philips.com/wifimediaconnect](http://www.philips.com/wifimediaconnect). Displays content with a delay of some seconds. Small differences of image and sound can occur.

\* Compatible only with Philips TV typenumbers as listed in the specifications.

\* Requires a PC (Laptop or Desktop, see minimum computer requirements), a wireless router and a broadband internet connection.
