Highlights

Extra set of Active 3D glasses

Philips uses state-of-the-art technology to deliver the Full HD 3D experience. Active 3D technology uses a wireless transmitter to rapidly open and close the shutters of the Active 3D glasses in perfect synchronization with what is shown on the TV screen. Action and special effects have never surprised our audience with more depth and reality. Share this unique 3D experience with your family and friends.

* PTA02 must not be used for 58PFL9955. The PTA03 can be used as the 58PFL9955 TV has an integrated 3D transmitter.

* PTA03 is an extension kit and will not work stand alone. Upgrade kit PTA02 is required because of the 3D transmitter. Exception: 58PFL9955 has integrated 3D transmitter and will work with only PTA03.

* Health Warning:

* If you or your family has a history of epilepsy or photosensitive seizures, consult a medical professional before exposing yourself to flashing light sources, rapid image sequences or 3D viewing.

* To avoid discomfort such as dizziness, headache or disorientation, we recommend not watching 3D for extended periods of time. If you experience any discomfort, stop watching 3D and do not immediately engage in any potentially hazardous activity until you symptoms have disappeared.

* Parents should monitor their children during 3D viewing and ensure they do not experience any discomfort as mentioned above. Watching 3D is not recommended for children under 6 years of age as their visual system is not fully developed yet.

* Do not use the 3D glasses for any purpose other than watching 3D TV.

* CHOKING HAZARD - Do not let children under 3 years of age play with the 3D glasses, they could choke on the battery lid or battery.
