# Highlights

## Unique OneBlade technology

The Philips OneBlade has a revolutionary technology designed for facial styling and body grooming. It can trim, edge and shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

## Trim it down

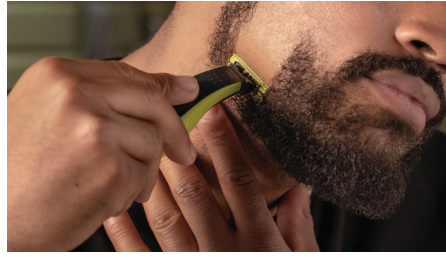

Trim to your preferred stubble length. Your Philips OneBlade comes with 3 stubble combs for a 5 o'clock, tight trim or long stubble.

## Edge it up

Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

## Shave it off

The OneBlade doesn't shave as close as a traditional blade, ensuring your skin stays comfortable. Go against the grain and easily shave off any length of hair with this sensitive skin hybrid styler.

## Contour following

Philips OneBlade for the face follows your facial contours allowing you to effectively and comfortably trim and shave all areas of your face.

## Dual-sided blade

Easily shave and trim to the contours of your face. The dual-sided blade for face allows you to style your edges and create clean lines in all directions.

## 3 click-on stubble combs

Get your preferred stubble length using one of the 3 included stubble combs at 1, 3 or 5mm.

## Durable OneBlade

Durable Philips OneBlade that you only need to replace every 4 months\* for optimal performance.
