# Highlights

## Unique OneBlade technology

The Philips OneBlade has a revolutionary technology designed for facial styling and body grooming. It can trim, edge and shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

## Trim it down

Trim your beard with one of the 3 stubble combs (1, 3, and 5 mm) and your body with the body comb (3 mm) in any direction.

## Edge it up

Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

## Shave it off

The OneBlade doesn't shave as close as a traditional blade, ensuring your skin stays comfortable. Go against the grain and easily shave off any length of hair with this sensitive skin hybrid styler. Includes two blades – one for face, and one for body.

## Guard

Attach the skin guard for an extra layer of protection on sensitive areas.

## Click-on body comb

Simply attach the 3mm body comb to trim in any direction.

## 3 click-on stubble combs

Get your preferred stubble length using one of the 3 included stubble combs at 1, 3 or 5mm.

## Dual-sided blade

Easily shave and trim to the contours of your face. The dual-sided blade for face allows you to style your edges and create clean lines in all directions.

## Durable OneBlade

Durable Philips OneBlade that you only need to replace every 4 months\* for optimal performance.

## Wet & dry

Use at the sink or take it with you into the shower. The Philips wet and dry OneBlade is easy to clean and can be used with or without foam.
