Highlights

Unique OneBlade Technology

The Philips OneBlade has a revolutionary new technology designed for facial styling and body grooming. It can trim, edge and shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and more comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

Trim it down

Trim your beard with one of the 4 stubble combs (1, 2, 3 and 5 mm) and your body with the body comb (3 mm) in any direction.

Edge it up

Create precise edges with the dual-sided blade. You can shave in either direction to get great visibility and see every hair that you're cutting. Line up your style in seconds!

Shave it off

OneBlade does not shave as close as a traditional blade – so your skin stays comfortable. Go against the grain and shave of any length of hair easily on your face or body. Includes two blades – one for face and one for body.

Guard

Attach the skin guard for an extra layer of protection on sensitive areas.

Click-on body comb

Attach the body comb (3 mm) for an easy trim in any direction.

4 click-on stubble combs

Attach one of the click-on combs to get the even stubble length you want.
