- Protects your system against limescale build-up

Prolong lifetime

- Regular decalcification extends lifetime and enhances taste

Quick and easy decalcification

- The best formula for easy decalcification

Sensational coffee quality

- Regular decalcification improves the taste of your coffee

Highlights

Exclusive formula

The exclusive formula of the Philips Saeco espresso machine decalcifier ensures thorough decalcification without harming the delicate parts inside your appliance.

Special Espresso Decalcifier

The Philips Saeco decalcifier perfectly cleans all the water circuits in your espresso machine.

Reduces limescale build-up

The Philips Saeco decalcifier helps protect your machine against the build-up of limescale from tap water, which affects performance and taste. The decalcifier is highly effective, safe and easy to use. For effective decalcification descale every 2 months. If your appliance is equipped with an INTENZA+ water filter descaling every 4 months is sufficient.*

Better taste and aroma

Regular decalcification keeps your espresso machine performing at its best, ensuring the best taste and aroma.

Quick and easy decalcification

The special Philips Saeco decalcifier for espresso machines comes with clear instructions for use, enabling quick, easy and safe decalcification.
