- Descaler Warning

PHILIPS

Saeco, a Philips brand

 **Saeco**

Highlights

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Bean to cup system

It means that whole coffee beans are freshly ground and directly processed for each and every beverage.

Pannarello

With the pannarello you can froth your milk exactly according to your preferences. Just dip the pannarello in the milk, while slowly stirring the milk with a rotary movement. Froth the milk as long as you want for more or less foamy mikfroth.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert – finished.

Cup lift

Manually adjustable drip tray to fit every cup size underneath the coffee dispenser

Cup holder

With this practical feature you can store your cups and glasses right on the machine - always within reach and conveniently stored without taking up space.

Ergonomy

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.

Descaler Warning

Dedicated led to advice the end user that the machine needs to be descaled

Customize coffee

With Saeco you can select your preferred coffee length and ground coffee quantity
