

Philips Fidelio  
Headphones with mic

### High-resolution audio

In-ear  
Ultra-soft silicone caps  
Flat cable

S2BK

## High fidelity, premium quality

Wherever you go

Philips Fidelio S2 headphones are precisely engineered to deliver natural, balanced sound, revealing every detail as the artist intended. Amazing sound presented in a lightweight yet durable design for true comfort and pleasure on the go.

#### Designed for precision

- High-resolution audio reproduces music in its purest form
- High-powered 13.5-mm neodymium drivers for exceptional sound
- Layered motion control drivers for refined high frequencies
- Engineered metal housing reduces vibration and resonance
- Semi-closed back design for sound balance and bass extension

#### Listen in comfort

- Ultra-soft silicone tips in 5 sizes for a custom, snug fit
- Copper alloy outer housing for lightweight durability
- Anti-scratch high gloss coating for added protection
- 2 Comply™ Foam Tips for a comfy fit and noise isolation
- Ergonomic earphones fit perfectly while dispersing pressure

#### Created for convenience

- Switch between music and calls with in-line control and mic
- Protective pouch to store your headphones when not in use

## Highlights

### High-resolution audio

High-resolution audio offers the best in audio performance, reproducing original studio master recordings more faithfully than 16 bit/44.1 kHz CD formats. This uncompromising quality makes high-resolution audio the best sound companion for the music lover. Fidelio headphones meet the stringent standards required for the Hi-Res Audio stamp of quality. Whether you are enjoying your Hi-Res collection or a more traditional music source, the smooth extended high frequencies of the Fidelio headphone range help you get more from your music.

### 13.5-mm neodymium drivers

Each speaker driver is carefully handpicked, tuned and tested before being paired to ensure delivery of the most balanced, natural sound. The 13.5-mm drivers utilise high-power neodymium magnets to deliver deep bass impact, transparent mid-range and refined high frequencies.

### Semi-closed back design

The semi-closed back architecture, combined with large, premium-quality drivers, ensures greater bass extension, while the design itself is optimised to minimise sound leakage. Front pressure equalisation channels allow for more detailed and balanced sound, which reduces the occlusion effect for a more natural listening experience.

### Copper alloy outer housing

Copper alloy outer housing for lightweight durability

### High gloss coating

The ergonomically designed earshell is protected by a high-gloss finish in a classic piano-black lacquer finish, which not only imparts a premium look and feel but also durability and resistance to scratches. The protective coating makes the earphones easy to clean and even easier to bring along with

you anywhere you go. Just give them a wipe and they'll look as good as new.

### Layered motion control drivers

Layered Motion Control (LMC) drivers feature a multi-layered polymer diaphragm that encases a layer of damping gel. Unlike traditional single-layer drivers at higher audio frequencies, which are rigid and reproduce uncontrolled and unnatural timbre, our LMC driver's multiple layers form a non-rigid boundary to hold a layer of gel in shape. The gel absorbs and dampens any exaggerated energies, resulting in a smooth and flatter frequency response, and therefore a more balanced, natural and refined high frequency range.

### In-line control and mic

The Fidelio S2 in-ear headphones feature an in-line remote and microphone so you can switch easily between your music and calls. Stay connected with important people – and your music, always.

# Specifications

## Sound

- Frequency response: 5–40 000 Hz
- Sensitivity: 107 dB
- Speaker diameter: 13.5 mm
- Maximum power input: 40 mW
- Impedance: 22 ohm
- Acoustic system: Semi-closed

## Design

- Colour: Black

## Accessories

- Storage pouch

## Connectivity

- Cable Connection: 3.5 mm 4 pole (1.2 M)
- Compatible with: iPhone®, BlackBerry®, HTC, LG, MOTOROLA, Sony, Nokia\*, SAMSUNG\*.  
\*Extra connector available through customer support for Sony Ericsson and older models from NOKIA and SAMSUNG
