Close shave. Advanced skin protection. with SenseIQ technology

Philips Norelco Shaver 7100 delivers a smooth shave while reducing skin irritation. Only Philips has ComfortGlide rings, a special anti-friction coating to protect your face from redness and irritation.

Shaving performance

- Powerful, yet gentle performance with fewer passes

Skin comfort

- ComfortGlide rings protect your face from irritation
- Maintains skin contact for a comfortable, smooth shave

For a convenient shave

- Get a convenient dry shave or a refreshing wet shave
- Even-up your mustache and sideburns
- 60 minutes of cordless shaving from a 1-hour charge
- One-touch open for easy cleaning
- LED display with intuitive icons

SenseIQ technology

- Guides you to an improved technique with fewer passes
- Adjusts to your beard for effortless shaving
- Master your technique with the Philips GroomTribe app

Highlights

ComfortGlide rings

Shaving heads are surrounded with ComfortGlide rings, a special protective coating with skin gliding properties, to shield your face from irritation.

SkinProtect blades

With up to 90,000 cutting actions per minute, the SkinProtect blades deliver a close shave with fewer passes* for more comfortable skin. The 45 high-performance blades are self-sharpening for a consistent shave every time.

360° contour heads

Fully flexible heads turn 360° to follow your facial contours. Experience optimal skin contact for a thorough and skin-friendly shave.

Shave wet & dry

Get a convenient dry shave or a more refreshing wet shave with gel or foam - even in the shower.

Pop-up trimmer

Refine and define your mustache and sideburns with the pop-up trimmer—and complete your look with ease.

60 minutes of cordless shaving

Use your shaver at home or on-the-go for up to 60 minutes on a 1-hour charge - that's about 20 shaves. Or a 5-minute quick charge gives enough power for one shave.

Smart Hair sensor

The intelligent sensor reads facial hair density 125 times per second and auto-adapts cutting power for an effortless and gentle shave.

Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to the optimal movements. After just three shaves, the majority of men achieved a better shaving technique for fewer passes**.

One-touch open

Clean your electric shaver with the touch of a button. Simply flip open the shaver head and rinse with water.
