\* For compatibility, look for the Qi logo (as picture below left) on supported devices. The Qi logo may be printed on the device, package or on the user manual. Devices with the Qi logo will be interoperable. The charge pad may not always work 100% on devices or accessories without the Qi logo.

\* There are 3rd party vendors that sell Qi certified smartphone sleeves. They may carry the Qi logo will be guaranteed to work with the charge pad. There are many wireless charging accessories that are unlicensed and not tested. These will not carry the Qi logo and may not work with the charge pad.

\* The charge pad may charge slower than a wired charger. That is due to the limitation of the bundled power adapter.
