

# Philips Shaver series 9000 Wet and Dry electric shaver

The Shaver 9000 is our most advanced shaver range. The unique contour detect technology offers exceptionally coverage over every contour of your face, and the V-Track system guides hairs into the best cutting position for the closest result . The energy efficient battery charger and powerful Li-ion battery provides up to 60 minutes shaving time.

## Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

### Energy

- Annual energy consumption < 1 kWh/year\*
- Max power consumption: 9W
- No load battery charger: ≤0,1W
- Battery type: Li-ion
- Travel lock
- Run time: 60 minutes
- One hour charging for full battery

### Packaging

- Cardboard: minimal of 75% recycled content
- Plastic: minimal of 25% recycled content
- No use of polyvinylchloride (PVC), expanded polystyrene (EPS) in packaging
