## Your music and video clips on the move

### Small size, big entertainment

The Philips GoGear ViBE Portable AV Player packs big entertainment into a superbly small design. Its 1.5" full colour display shows off album art and folder view ensures easy file navigation and organisation.

#### **Your music and videos on the go — every day**

- Play back MP3, WMA or DRM music from subscription services
- FM radio with RDS and 20 presets for more music options

#### **Ready to wear, ready to go**

- More content choices, with Napster and Audible support
- 1.5" Full colour display for easy navigation and album art
- Up to 25-hour music or 4-hour video playback
- Small and wearable for ultimate portability
- Voice recording to take notes or record anything, anytime

#### **Easy and intuitive experience**

- Easy video downloads from the Internet to your GoGear
- Easy and intuitive user interface with album art display
- Folder view to organise and view media files as you do on your PC
- Direct charging from PC via USB

**PHILIPS**

# Highlights

## 3.8cm/1.5" Full colour display

3.8 cm (1.5") full colour screen allows you to navigate easily within the control menu or the music files of your GoGear player. Plus, you can flip through your photo collection while enjoying your music on the go.

## Internet video download

View videos on the go with Internet Video Download, an easy-to-use feature that lets you download videos from video sharing sites (YouTube, MySpace or Google Video) to your GoGear. Install the PC application provided,

connect your GoGear to your PC and use Internet Explorer to visit your favourite video sharing site. Choose a video and click the Download button that appears when you hover the mouse cursor over the video. No need to wait — just move on to other videos and start downloading more.

## Album art in full colour

GoGear's easy and intuitive user interface is powered by advanced navigation technology. It not only helps to ensure quick and smooth

navigation but also an enjoyable multimedia experience that doesn't take long to master. Smart features like Album Art—which displays album artwork embedded in music files—enables you to have a richer experience, just like in the good old days when you would view the cover of a CD or LP while enjoying your music.

# Specifications

## Picture/Display
