Highlights

3.8 cm/1.5" Full color display

3.8 cm (1.5") full color screen allows you to navigate easily within the control menu or the music files of your GoGear player. Plus, you can flip through your photo collection while enjoying your music on the go.

Folder view

Folder view is an optional directory view of the GoGear player that lets you view all the files on your player as if it were a computer. Once you select Folder view, opening any supported file (i.e. music, pictures or videos) is as easy as selecting the file and hitting Play.

Smart Shuffle

Smart Shuffle to listen to what you like most first

FM radio with RDS/ 20 presets

RDS (Radio Data System) is a communications protocol standard that allows digital information to be transmitted over FM radio broadcasts. RDS-enabled FM radio receivers can display this useful information that includes station identity, program details and song title and artist, etc. At anytime, you can store a desired station as a preset channel on your GoGear player. With 20 preset radio stations that can be stored, you can quickly access your favorite radio station without having to manually tune the frequencies each time.

Album art in full color

GoGear's easy and intuitive user interface is powered by an advanced navigation technology. It not only helps to ensure quick and smooth navigation but also an enjoyable multimedia experience that doesn't take long to master. Smart features like Album Art – which displays album artwork embedded in music files – enables you to have a richer experience, just like in the good old days when you would view the cover of a CD or LP while enjoying your music.

Napster and Audible

Enjoy the best audio content on your Philips GoGear with Napster and Audible. With the music flatrate Napster To Go you can enjoy millions of songs in excellent quality. Simply transfer them to your GoGear by drag & drop without paying for every song individually. Discover new music with various services such as automix playlists and radio stations, just the way you like it. Audible offers over 50,000 audio programs such as audiobooks, broadcasts, entertainment, magazines, newspapers and business information. Choose from monthly plans or buy content a-la-carte to take with you on your GoGear.

FullSound™

Philips' innovative FullSound technology faithfully restores sonic details to compressed MP3 music, dramatically enriching and enhancing it, so you can experience CD music without any distortion. Based on an audio post-processing algorithm, FullSound combines Philips' renowned expertise in music reproduction with the power of the latest generation Digital Signal Processor (DSP). The result is fuller bass with more depth and impact, boosted voice and instrument clarity, and rich detail. Rediscover your compressed MP3 music in true-to-life sound that will touch your soul and move your feet.
