Highlights

XSL Acoustics

Enjoy dynamic sound and powerful bass performance from your ShoqBox with XSL Acoustics. Impressive sound is produced by combining bright, brisk treble and mid-range sound with elastic, powerful bass. Innovative use of high-tech materials like titanium cone and neodymium magnet delivers sound output that's nearly double the power of a traditional speaker driver of the same size. Precise tuning between the speaker driver, the small acoustic architecture and the circuitry ensures superbly dynamic sound and optimises bass performance from the smallest sound enclosure.

DBB Dynamic Bass Boost

Activate the Dynamic Bass Boost (DBB), and the low-end bass frequencies are electronically enhanced to achieve consistent sound reproduction, especially when the speaker volume is set at a low level. You hear impressive bass at all times.

Compact and lightweight

Small and lightweight - you'll hardly notice it's with you. Pop it in your pocket or bag and take it anywhere.

Carrying pouch for speakers

Look after your speaker and stop the cable getting tangled by storing it in this handy soft pouch when not in use.

For portable equipment

Universal use with all portable entertainment equipment. Simply connect using the 3.5 mm plug.

Speaker cable management

With its unique design, cable storage is no longer an issue. Simply pack and go.
