Highlights

XSL Acoustics

Enjoy dynamic sound and powerful bass performance from your ShoqBox with XSL Acoustics. Impressive sound is produced by combining bright, brisk treble and mid range sound with elastic, powerful bass. Innovative use of high-tech materials like titanium cone and neodymium magnet deliver sound output that's nearly double the power of a traditional speaker driver of the same size. Precise tuning between the speaker driver, the small acoustic architecture and the circuitry ensures superbly dynamic sound and optimizes bass performance from the smallest sound enclosure.

DBB Dynamic Bass Boost

Activate the Dynamic Bass Boost (DBB), and the low-end bass frequencies are electronically enhanced to achieve consistent sound reproduction, especially when the speaker volume is set at a low level. You hear impressive bass at all times.
