

Philips  
Portable Speaker System

SBCBA250

# Portable Speaker System

## Ultra Bass Philips Patented Technology

A multi-purpose active mini speaker system with Ultra Bass for enhancing music enjoyment with your PC or portable audio equipment.

### Powerful Sound

- Bass response can be set to suit your preference
- Built-in amplifier increases power for impressive audio
- Philips patented Ultra Bass technology enhances bass tones

### Always ready to go

- Headphone jack for better personal music enjoyment
- Magnetic Shielding eliminates computer screen distortion
- No screen distortion when using close to a PC

# PHILIPS

# Specifications

# Highlights

## Bass level control

Set the bass response to your personal preference using a control on the speaker system itself.

## Built-in Amplifier

With a built-in amplifier, even weak signals sound impressive on this powerful speaker system.

## Ultra Bass

Ultra Bass, a patented Philips technology, dramatically improves the perceived bass response of small speakers. It seeks out and plays the harmonics found in ultra-low bass frequencies to deliver sound quality that far exceeds your expectations.

## Headphone jack

Headphone jack for better personal music enjoyment

## Magnetic Shielding

Because the powerful magnets in speaker drivers are magnetically shielded, there's no danger of image distortion or damage when placed close to your PC monitor screen.

## Suitable for use with PCs

Shielding behind the driver's powerful magnets blocks the magnetic field, so you can safely place the speakers close to a PC monitor screen without risk of damage or image distortion.
