- 3.5 - 6.35mm adaptor connects to all types of audio devices
- In-line control that simplifies volume adjustment
- Headphone specifically made for TV and HiFi equipment

PHILIPS

Specifications

Highlights

30 mm speaker driver

Compact for wearing comfort yet big enough to deliver crisp, powerful sound, the 30 mm speaker driver is a perfect size for non-distorted listening enjoyment.

Bass Beat vents

Bass beat vents allow air movement for better sound with a deep rich bass.

Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

Light weight headband

The light weight material used for the headband

Reinforced cable connection

A soft plastic part on the earshell reduces cable strain, protects the connection and prevents damage from repeated bending.

6m cable

Extra long 6m cable for you to connect your headphones to TV or any audio equipment.

Audio jack adaptor included

With this adaptor, you can use your headphone on equipment with either 3.5 or 6.35 mm jacks, giving you a wider choice of audio devices.

In-line volume control

Adjust the volume to your preferred level without having to go to the audio source unit.

TV Headphone

Designed to make TV viewing a more personal experience, this headphone has a longer cable and its own volume control so you can sit further away from the TV. It's great for listening to your HiFi equipment too.
