Highlights

8in1 for home cinema remote

Make operating your home cinema easier than ever with just one easy-to-use unit that'll operate your TV, VCR, DVD, tuner, satellite receiver, digital set-top box, CD player, amplifier and receiver regardless of the brand or model. Enjoy one-touch convenience when watching your favorite movies.

Dual transmission

With standard infrared (IR) transmission for remotely operating normal devices, and a built-in radio frequency (RF) transmitter for remotely operating devices in cupboards, cabinets or in other rooms, the range is considerably extended. The RF transmission is converted back to IR with a dedicated receiver.

Macro function

Benefit from 'one-touch' convenience by creating your own macros that perform any sequence of commands from a single button. Just imagine, turning the TV on, setting the surround sound and starting the movie rolling with just one touch!

Timer function

You'll never have to miss your favorite show again. Simply set the timer to switch on the TV at the time the programme starts. It's programmable for any device.

Fast menu access

The important functions like setup menu and text TV have clearly labelled, dedicated keys to make operating your equipment easier.

Learning favorite keys

To have your 5 favorite functions of your original remote available you can copy the signal transmitted from the original remote. If these are your/or your kids favorite channels you can even lock the remote to see any of the other channels.

Pre-programmed for Philips

If you have Philips equipment, you can use your universal remote control without programming it because all keys are pre-set for Philips.

Batteries included

No extra batteries to buy, so you can use your new universal remote control straight out of the packaging!

URC Service line

If you have a problem or question about your universal remote control, or there's a function key on your original remote control not covered by the extensive built-in code library, call the service line for a solution. It's available seven days a week.
