- Humidity: Waterproof up to 1.5m
- Operating temperature range: 32-45C (90-110F) °C
- Accuracy: +/-0.2C
- Measurement time: 10 s

Highlights

Measure within seconds

Never too hot, never too cold - the "Just Right" digital thermometer quickly tells you if the milk or food is safe to eat or drink. It takes the guessing out of warming bottles or jars and is great for checking if food is still warm enough after taking a short break in feeding.

Fits all bottle and jar types

The product is designed in such a way that all kind of sizes and shapes of bottles and jars fit in.

Detachable electronics

By detaching the sensitive temperature measuring electronics from the pacifier, you can safely sterilize or boil the part your baby comes into contact with.
