

# PHILIPS

## Baby Monitor

SBCSC364

## Sound level-lights

Rechargeable wireless Baby Monitor for extra convenience.

### Reliability & Piece of mind

- More transmission channels lowers the risk of interference
- Analog Pilot Tone minimizes interference from other devices
- Battery low indication shows when to refresh batteries
- Two AC power adapters are included.

### Convenience for you and your child

- Simplifies the selection of the volume you prefer
- High-quality microphone has adjustable sensitivity

### Flexibility in monitoring your child

- Take the parent unit with you in and around the house
- Maximum operating distance between units with no obstacles

### Extra portability

- Portable parent unit due to the adjustable belt clip.

# Highlights

**Number of channels**

A choice of channels significantly reduces the risk of interference or sounds from other baby monitors in the neighbourhood.

**Analogue Pilot Tone**

A special tone that is transmitted along with the audio signal minimizes the chance of interference from other wireless appliances.

**Battery-low indication**

To know in time when the batteries need to be recharged or replaced.

**Two AC power adapters**

With the two AC power adapters, you can use both the baby unit and parent unit on the mains power to save on batteries.

**Volume control**

A handy rotary control sets the volume to the ideal level to suit your preference.

**Adjust Microphone sensitivity**

Possibility to set the sensitivity of the microphone so you only hear the sounds you want to hear.

**Use in & around the house**

Rest assured that as you take the parent unit with you as you move in and around your house, the parent unit will stay in touch with the baby unit. It keeps you reassuringly informed and able to respond quickly when baby calls.

**Range in open air**

In the open air with no obstacles, the safe distance between the baby unit and parent unit is greater than indoors, so you can take the parent unit with you into the garden or to the neighbour's house without losing contact.

**Portable parent unit**

With the adjustable belt clip, you can easily take the parent unit with you, wherever you go.
