- User Manual

SBC TT250/00

Highlights

36 dB amplification

36 dB amplification boosts weak signals, expanding your reception range and allowing you to receive more signals over a greater distance.

Low noise amplification

Together with the adjustable amplification, low noise amplification ensures you of a great reception range and improves the quality of your signal.

Battery Operated

Convenient battery operation on two AA batteries for optimum portability and positioning.

Optional DC 12V power source

Optional DC 12V power source allows you to choose to plug antenna into your vehicle's cigarette lighter.

Design lines compliment TVs

Simple, elegant design lines compliment today's new TVs.

Compact design

Compact design allows you to position the antenna virtually anywhere.
