# Highlights

## Hydrates during cell renewal

The laser aftercare complex is a vital part of Philips RéAura laser skin rejuvenation. Your skin needs hydration after the treatment and during the process of cell renewal that is triggered by the Philips RéAura device. Use the laser aftercare complex immediately after each treatment. Re-apply it within one hour after the treatment and on the days in between laser treatments to hydrate as needed.

## Caring ingredients

The laser aftercare complex cares for your skin after treating with the Philips RéAura device. It contains calming chamomile as well as Saint John's wort and edelweiss extracts, which are known for their anti-inflammatory properties.

## Hypoallergenic, non-comedogenic

Test results show that the formulation is hypoallergenic and that it is non comedogenic, meaning that it will not clog your pores.

## Developed with Fraxel®

The laser aftercare complex has been specially formulated to be used after treatment with the Philips RéAura device. It has been developed with the makers of Fraxel® laser technology, based on their expertise in lasered skin.
