

Philips VisaPure Essential Facial Cleansing Device

The VisaPure Anti-Blemish targets the two stages precedent to the formation of a blemish with better results compared to cleansing by hand: reduces oiliness and removes dead skin cells that may otherwise clog pores

The product is rechargeable and comes with an energy efficient battery charger.

The product is free of polyvinylchloride and brominated flame retardants

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Annual energy consumption < 1 kWh/year*
- No load battery charger: ≤0,15W
- Battery type: Li-ion
- Rechargeable battery
- Run time: 30 uses of 1 minute each
