## 750 finger taps per minute

The customized DualMotion programme delivers a revitalizing and relaxing experience. It has been developed with experts in Japanese massage and is designed to mimic

the renowned massage techniques called Petrissage and Tapotement. It can do what your hands cannot do. ## Easy to clean

The Head is easy to clean. Simply clean it in the sink with warm water and soap.

## 3 Minute Massage programme

Thanks to the Intelligent Head Recognition of the VisaPure Advanced range, the device recognizes the Head once it is put on, and automatically triggers a customized programme of DualMotion, with dedicated levels of rotation, vibration, duration of the programme and direction of rotation. The Revitalizing Massage programme uses two-way rotation to be able to follow the lymphatic flow in the skin.
