Highlights

2oz/60ml bottle container

A smaller size bottle to help ensure the appropriate amount for baby's smaller tummy.

Slower flow nipple

A smaller hole size delivers a more controlled flow rate for slower drinking babies.

Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Ultra soft nipple

The nipple has an ultra soft texture, designed to mimic the feel of the breast.

Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible nipple, allowing for a more natural feed without nipple collapse.

Anti-colic valve technology

Our unique anti-colic valve technology was designed to reduce colic and discomfort, by venting air away from your baby's tummy.

Choosing the right nipple

The Philips Avent Natural range offers different nipple softness and increasing flow rates for every development stage of your baby.
