Ease your baby's transition to a drinking cup

This Natural trainer kit eases your baby into their first cup. The comfort grips help your baby hold the bottle independently while drinking from the familiar nipple. When ready, switch to the silicone spout to complete the transition.

Ideal first step to a drinking cup

- Soft touch trainer handles for little hands

Convenient for you and your baby

- All parts are dishwasher safe for convenience

Other benefits

- Compatible with Philips Avent bottles and cups
- Flexible spiral design combined with comfort petals
- Unique anti-colic valve technology
- This bottle is BPA free*

Highlights

Ergonomic trainer handles

Trainer handles help your toddler to hold the cup and drink independently. These handles are shaped for little hands to grab easily and they are also rubberized for a non-slip grip.

Cup is dishwasher safe

All parts are dishwasher safe for convenience

Philips Avent compatibility

All Philips Avent bottles and cups are compatible excluding the glass bottles and the Grown-up cups/My First Big Kid Cups. So you

can mix and match to create the perfect cup, suiting your toddler's individual development needs.

Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible nipple, allowing for a more natural feed without nipple collapse.

Anti-colic valve technology

Our unique anti-colic valve technology was designed to reduce colic and discomfort, by venting air away from your baby's tummy.

This bottle is BPA free*

The Philips Avent Natural bottle is made of BPA free* material (polypropylene).

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

* 0% BPA, following EU regulation 10/2011

* What colic is, and how it affects babies? Colic is caused in part by swallowing air while feeding, which creates discomfort in a baby's digestive system. Symptoms include crying, fussing, gassiness and spit-up.
