# Highlights

## Less colic

Our clinically proven Airflex venting system is designed to reduce gas and colic. As your baby feeds, the valve integrated into the nipple flexes to allow air into the bottle to prevent vacuum build up and vents it towards the back of the bottle. It keeps air in the bottle and away from baby's tummy to help reduce gas, spit-up and burping.

## Less fussing

Philips Avent anti-colic bottle reduces fussing. Babies fed with Philips Avent anti-colic bottles experienced 60% less fussing at night, than babies fed with a leading competitor's vented bottle. \*

## Uninterrupted feeding

The nipple shape allows secure latch and the ribbed texture helps prevent collapse for uninterrupted, comfortable feeding.

## Leak-free

Our anti-colic bottle is designed to prevent leakage whilst feeding, for a truly enjoyable feeding experience.

## Secure latch

The nipple is designed not to collapse, for a secure latch and uninterrupted feeding.

## Easy to assemble

Our Anti-colic bottle has fewer parts for quick and simple assembly.

## Growing up with your baby

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!

## Easy to hold

The unique bottle shape makes this bottle easy to hold and grip in any direction.

## Easy to clean

With its wide neck and fewer parts, our bottle is easier to assemble and to clean quickly and thoroughly.

## BPA free

Philips Avent anti-colic bottle is made of BPA free material (PP).
