My first grown up drinking cup

The ideal transition cup for growing toddlers

This revolutionary Philips AVENT drinking cup helps your toddler transition to grown up drinking, without the mess. The unique spill proof valve is lip activated and allows drinking from all around the rim, just like an adult's cup

Easy transition to grown up drinking

- Drinking from all around the rim, just like an adult cup
- Spoutless and strawless drinking

Hygiene lid

- Protective hygiene lid always keeps the cup clean

Ideal for 12m+ toddlers

- Fast flow valve enables effortless drinking

For independent drinking

- Trainer handles help your toddler to hold the cup

BPA Free

- This cup is made from BPA free material

Highlights

BPA Free

This Philips AVENT cup is made from BPA free material

Easy transition

This spoutless, strawless cup allows drinking from all around the rim, just like an adult cup. It encourages your toddler to get used to grown up drinking, without the mess

Hygiene lid

Whether at home or on-the-go, the protective hygiene lid always keeps the cup clean

Unique spill proof valve

The unique spill proof valve is a brand new innovation, specially designed by experts at Philips AVENT. The valve is lip activated, so easy drinking for your toddler but no mess when not in use.
