EN Philips indoor digital TV antenna

- 1 Route the coaxial cable and fix it by the cable clip on the bottom of antenna base (①).
- 2 Connect the other end of coaxial cable to the TV receiver or TV signal outlet (②).
- 3 Position the digital antenna on a flat surface near a window to aim at the TV transmitter.
- 4 Turn on the TV and scan to preset TV channels.
- 5 Make sure that the digital antenna faces the location of local transmitter. Turn the digital TV antenna slowly until the best reception is achieved.
