Product highlights

Minimum signal loss

Signal information is inevitably lost going from any digital source to any TV. Minimum signal loss means you only lose the least amount of that signal information.

Gold plated connectors

High quality connectors which minimize signal loss.

Rugged die-cast body

Die-cast metal rejects interference to ensure you receive the best picture possible.

AC/DC power supply

Powers the unit from any AC outlet.

Corrosion-resistant connection

24K gold-electroplated connectors create secure and extremely durable connections that optimize signal quality and deliver the best picture and data transfer.

Powder coat finish

This rugged outer layer is weather-resistant for extended durability
