Highlights

Upgraded Solution

The upgraded solution makes maintaining your Philips Shaver easier than ever. This new format will allow you to install new shaving heads in just two steps, facilitating thorough cleaning of the shaver and optimising your daily shave.

Simple replacement

1. Remove the shaving head. 2. Replace the shaving head with a new one. 3. To reset the shaver, press and hold the on/off button for more than 5 seconds.

Replacement reminder

The latest Philips shavers have an inbuilt replacement reminder in the form of a shaving unit symbol. This symbol will light up and indicate when to replace the shaving heads.

GentlePrecision Blades

The electric shaver for sensitive skin is equipped with GentlePrecision Blades to minimise tugs, pulls or repetitive passes on your skin. Even when used on 3-day stubble.

How to reset your shaver

After replacing the shaving heads, you can reset the replacement reminder by pressing the on/off button for more than 7 seconds. Otherwise, the replacement trigger will turn off automatically after 9 successive shaves.

SkinGlide Rings

Experience the smooth glide of Philips advanced microsphere technology. Inspired by gliding principles in aerodynamics, the shaver rings are coated with thousands of tiny, glass-like spheres for maximum skin comfort.
