- Standby time: up to 300 hour(s)
- Talk time: up to 14 hour(s)
- Music playtime: 14 hour(s)
- Battery Type: Li-polymer
- Rechargeable
- Battery weight: 8.8 g

Accessories

- Included: quick start guide and CD

Outer Carton

- Outer carton (L x W x H): 22 x 21 x 20,5 cm
- Gross weight: 1,1 kg
- Nett weight: 0,294 kg
- Tare weight: 0,806 kg
- Number of consumer packagings: 3
- EAN: 87 12581 56494 0

Packaging dimensions

- Type of shelf placement: Dummy
- Packaging dimensions (W x H x D): 19,5 x 19,5 x 6,5 cm
- Gross weight: 0,293 kg
- Nett weight: 0,098 kg
- Tare weight: 0,195 kg
- EAN: 87 12581 39639 8
- Number of products included: 1
- Packaging type: Dummy

Product dimensions

- Weight: 0,0529 kg
- Product dimensions (W x H x D): 15 x 15 x 5,5 cm

Highlights

FullSound enhanced music

What is music without heart and soul? During the recording and compression of digital music details and dynamics of the live music get lost. FullSound is a smart algorithm, running on a powerful chip inside the headset. It improves the quality of your music and restores the music's original dynamics, stereo effects, bass and treble to reveal previously unheard detail without distortion. FullSound is enabled out of the box, and can be turned off and on.

Bluetooth® Stereo (A2DP)

This Philips device fully supports Bluetooth Stereo (A2DP). A2DP (Advanced Audio Distribution Profile) compliance enables this headset to receive stereo music from any Bluetooth device that is A2DP compliant. Therefore you can use this headset with any compatible mobile phone, PC, Bluetooth adapter, MP3 player etc. that supports A2DP.

Bluetooth HSP/HFP compliant

Bluetooth is a cable replacement technology. Bluetooth is a global standard, so Bluetooth devices of different manufacturers can interoperate using shared Bluetooth profiles. HSP (Handset Profile) and HFP (Handsfree Profile) are the profiles required for typical Bluetooth headset operations. If your mobile phone is compliant to HSP or HFP (like virtually any Bluetooth enabled phone) this headset will work with it. The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Koninklijke Philips Electronics N.V. is under license.

OptiFit neckband

With the OptiFit neckband, you can easily adjust the headset while you are wearing it for a comfortable, personalized fit. It features a flexible hinge and adjustable soft earloops and places the speakers at the optimum angle to your ear for maximum sound performance.

SwitchStream

With SwitchStream you will hear a ring tone in your Philips wireless headphones when you are receiving a call on your Bluetooth enabled phone. You can then pick up the call from your headset and return to your music after ending the call. Never miss a beat, never miss a call.

Wireless music control

Music control buttons on your headset allow you to wirelessly control music on your (AVRCP - Audio Video Remote Control Profile) compatible phone, MP3 player or PC. Skip forward to your favourite songs, or pause the music for a quick chat - all with the press of a button within your arms reach.

Wireless call management

Manage your call without using your mobile phone. This includes call acceptance, rejection, voice dial and redial. Voice dial and redial have to be supported by your mobile phone.
