Highlights

BT HSP/HFP compliant

Bluetooth is a cable replacement technology. Bluetooth is a global standard, so Bluetooth devices of different manufacturers can interoperate using shared Bluetooth profiles. HSP (Headset Profile) and HFP (Handsfree Profile) are the profiles required for typical Bluetooth headset operations. If your mobile phone is compliant to HSP or HFP, this headset will work perfectly with it.

Comfortable for long wear

The deluxe super soft ear cushions enable you to wear your headphones for as long as you like without discomfort.

Deluxe FloatingCushions

The newly innovated deluxe FloatingCushions design of these Philips headphones allows for full multi-directional, auto-adjustment of the cushions, without the need of the traditional C-hinge construction. This results in a seamless design, which ensure optimum stability by applying an evenly distributed pressure force onto the user's head and ears. Therefore creating a strong ownable story with regards to comfort and fit.

Digital enhancement

Booming & superior bass from high performance drivers and digital enhancement.

Slim headband design

Integrated slim headband design delivers its slimmess

Smart controls

Easily switch between music and calls with smart controls (volume, track and toggle control)

Wired or wireless

Use as a Bluetooth wireless headphone or listen via 3.5mm plug in option.
