Highlights

32 mm speaker driver
The 32 mm speaker driver is a compact yet powerful element for delivering non-distorted sound with any given input power.

Self-adjusting inner headband
Typically headphones worn outdoors are adjustable by sliding an extendable headband into position. This can be cumbersome as it usually has to be done every time you use it. Get your music fix faster and easier with these headphones' flexible, self-adjusting inner headband. It will automatically adjust to your head's shape and size.

Lightweight design
The durable, lightweight quality materials of these Philips headphones enhance comfort for extended wearing.

FM Wireless transmission
With high frequency FM wireless transmission, which can even pass through walls, you can even listen to your music when you’re in another room.

Fully rechargeable
The headphones are designed to be used with rechargeable batteries. No worry on cost for repeated use.

2 transmission channels
With a choice of two transmission channels your listening pleasure is protected because you can easily switch to the one with the best reception.
