Highlights

Soft ear and headband cushions

The durable and soft materials used for the ear cushions and headband cushion of these Philips headphones ensure comfortable prolonged use.

3-way adjustable ear shells

Enjoy a comfortable fit and experience better bass performance thanks to the three-way adjustable ear shells that fit naturally around your ears.

Ergonomic design ear cushions

The ergonomic three-dimensional ear cushion shape evenly distributes the load for a better and more comfortable fit.

Treble Boost

An easy-to-locate control on the headphone allows you to boost the treble performance with just one touch.

Bass boost

An easy-to-locate control on the headphone allows you to boost the bass performance with just one touch.

40 mm speaker driver

The 40 mm speaker driver is made of a composite Mylar material for a highly sensitive yet powerful element that delivers sound without audible distortion.

FM Wireless transmission

With high-frequency FM wireless transmission, which can even pass through walls, you can even listen to your music when you're in another room.

Automatic tuning

Pressing the handy tuning button on the headphone sets the microprocessor-controlled circuit going to optimally tune the transmission frequency for the best possible reception and superb audio quality.

Energising docking station

The docking station is the most convenient way to store your receiver when not in use. At the same time, it will recharge your receiver unit and have it ready for use at any moment.
