Highlights

Quick release neckstrap

The quick release neckstrap includes a safety mechanism that automatically uncouples when the MP3 player is pulled strongly. This makes it also convenient to remove the neckstrap.

Easy Twist & Release clip

The easy to use Twist & Release clip provides a simple and fast way to connect and disconnect the MP3 player from the neckstrap. Simply twist the clip and the MP3 player is released.

Sliding locks

Sliding locks keep the cables together keeping them neat, secure and tangle-free. The sliding lock in the middle can adjust the size of the necklace strap for an enhanced secure fit.

Acoustics vents

Acoustic vents allow air to flow through the ear speaker; this helps to balance the high tones and bass, creating a more rounded and realistic listening experience.

Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

Ultra soft strap material

The ultra soft strap is made from durable cotton, which has a soft-touch to the skin. This makes it extra pleasant to wear.

15 mm speaker driver

Small enough for optimum wearing comfort and big enough to deliver crisp, non-distorted sound, the 15 mm speaker driver is an ideal size for listening enjoyment.

Flexi-Grip design

A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.
