Highlights

24k Gold-plated plug

Rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.

Carrying Case

This case is the most convenient way to look after your headphones and prevent cable tangling when not in use.

Flexi-Grip design

A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.

In-line volume control

Adjust the volume to your preferred level without having to go to the audio source unit.

13.5mm speaker driver

Small enough for optimum wearing comfort and big enough to deliver undistorted sound, an ideal size for listening enjoyment.

Air cushioned caps

Air in between the cap and the driver gives you a soft feel like a pillow as it reduces the pressure on your ears.

Comfortable to wear

This headphone is designed around the shape of your ear for extra comfort and more enjoyment during longer periods of listening.

Twin vents

Specially designed vents that channel the air balance the high tones and bass for a more rounded listening experience.
