Highlights

Perfect in-ear seal

The Super-small speaker drivers of these Philips earphones fit comfortably inside the ear, and thanks to the exceptionally snug fit the outside noise is sealed out for a high-intensity listening experience.

1.2 m cable

The ideal cable length to give you the freedom to put your audio device where you want.

For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, there is sure to be a pair that makes these Philips earphones fit your ear perfectly.

Small efficient speakers

Small efficient speakers for Philips earphones ensure an exact fit and deliver precise sound with powerful bass, ideal for your listening enjoyment.

Ultra-small in-ear

Ultra-small, lightweight in-ear design for best fit in smaller ears, for many hours of listening.

Anti-tangle slider

When storing your headphones there is a risk that the cables may tangle if not stored carefully. This makes it a hassle to store the headphones and get them ready for listening. Simply slide the anti-tangle slider towards the earpieces to keep the two earpiece cables neatly together and to minimise the risk of the cables tangling.
