Highlights

Acoustics vents

Acoustic vents allow air to flow through the ear speaker; this helps to balance the high tones and bass, creating a more rounded and realistic listening experience.

1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.

For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, surely there is a pair that makes these Philips earphones fit your ear perfectly.

Anti-tangle slider

When storing your headphones there is a risk that the cables tangle if not stored carefully. This makes it a hassle to store the headphones and get them ready for listening. Simply slide the anti-tangle slider towards the earpieces to keep the two earpiece cables neatly together, and to minimize the risk of the cables tangling.

Perfect in-ear seal

The Super-small speaker drivers of these Philips earphones fit comfortably inside the ear and thanks to the exceptionally snug fit the outside noise is sealed out for high-intensity listening experience.

Small efficient speakers

Small efficient speakers for Philips earphones ensure an exact fit and deliver precise sound with powerful bass, ideal for your listening enjoyment.

Ultra-small in-ear

Ultra small, lightweight in-ear design for best fit in smaller ears, for long hours listening.

Your own personalization

Download the Philips Headset App to personalize the sound of your headset as well as the remote to Answer/ End call, Play/ Pause music, Adjust volume +/-, and Change tracks.

Integrated microphone

With the integrated microphone and call button you can use this Philips headset for music as well as calls from your mobile phone. Enjoy handsfree calling, while easily accepting and ending calls from your headset.
