- Net weight: 0.414 kg
- Tare weight: 0.158 kg

Outer Box

- Gross weight: 10.397 kg
- Outer carton (L x W x H): 48.8 x 39.8 x 49.2 cm
- Net weight: 9.144 kg
- Tare weight: 1.253 kg

Packaging dimensions

- Packaging dimensions (W x H x D): 10 x 22 x 3 cm
- Gross weight: 0.069 kg
- Net weight: 0.022 kg
- Tare weight: 0.047 kg

Highlights

Passive noise isolation

The perfect, snug fit inside your ear stops unwanted background noise detracting from the pure pleasure of your favourite music. This means you still enjoy the headphones' superb sound quality at lower volume settings and also benefit from a longer battery life.

Neodymium magnet

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

CCA W voice coil

By using top-quality Copper Cladded Aluminium Wire (CCA W) in the headphone driver's voice coil, the sound quality is considerably improved.

24 k Gold-plated plug

You can rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.

For optimal fit in all ears

With a choice of three interchangeable ear caps from size small to large, surely there is a pair that fits your ear perfectly.

Comfort fit

This headphone is designed around the shape of your ear for extra comfort and more enjoyment during longer periods of listening.

Asymmetric cabling system

This simple yet highly effective solution to cable tangling works effectively by enabling you to hang the cable behind your neck instead of under your chin.

Super soft rubber caps

The ultra-soft rubber material on the rubber caps is sensational to the touch and adapts effortlessly to your ear. In-ear headphones have never been this comfortable.

Carry case

This case is the most convenient way to look after your headphones and prevent the cable tangling when not in use.

1.2 metre cable

The ideal cable length to give you the freedom to put your audio device where you want.

Flexi-Grip design

A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.

Split cable

This standard cable has a 3.5 mm socket on one end and a 3.5 mm plug on the other for extending your freedom of movement with headphones.
