- Tare weight: .047 kg

## Outer Carton

- Gross weight: 10.397 kg
- Outer carton (L x W x H): 48.8 x 39.8 x 49.2 cm
- Nett weight: 9.144 kg
- Tare weight: 1.253 kg

## Inner Carton

- Gross weight: .572 kg
- Inner carton (L x W x H): 23.3 x 18.5 x 11.3 cm
- Nett weight: .414 kg
- Tare weight: .158 kg

# Highlights

## 1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.

## 24k Gold-plated plug

Rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.

## For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, surely there is a pair that makes these Philips earphones fit your ear perfectly.

## Asymmetric cabling system

This simple yet highly effective solution to cable tangling works effectively by enabling you to hang the cable behind your neck instead of under your chin.

## Carrying Case

This case is the most convenient way to look after your headphones and prevent cable tangling when not in use.

## CCAW voice coil

By using top-quality Copper Cladded Aluminium Wire (CCAW) in the headphone driver's voice coil, the sound quality is considerably improved.

## Comfort fit

This headphone is designed around the shape of your ear for extra comfort and more enjoyment during longer periods of listening.

## Flexi-Grip design

A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.

## Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

## Passive noise isolation

The perfect, snug fit inside your ear stops unwanted background noise detracting from the pure pleasure of your favorite music. This means you still enjoy the headphones' superb sound quality at lower volume settings, and also benefit from a longer battery life.

## Super soft rubber caps

The ultra soft rubber material on the rubber caps are sensational to the touch and adapts effortlessly to your ear. In-ear headphones have never been this comfortable.

## Split cable

This standard cable has a 3.5mm socket on one end and a 3.5mm plug on the other for extending your freedom of movement with headphones.
