# Highlights

## Gel body headphones

Designed specifically with comfort in mind, using soft gel materials for the headphones body that moulds gently to the shape of your ear-shell.

## Super soft rubber caps

The ultra soft rubber material on the rubber caps are sensational to the touch and adapts effortlessly to your ear. In-ear headphones have never been this comfortable.

## For a snug and natural fit

Angled Acoustic Pipe is ergonomically designed according to the anatomy of the human ear canal. It fits in the ear so snugly and comfortably that you can put it on and simply forget about it.

## For most directional sound

Angled Acoustic Pipe is designed according to the curvature of the human ear canal so that soundwaves from the speaker are directed precisely to your ear drum with the highest definition

## For best sound at low volume

You don't have to turn up the volume in noisy places anymore. Angled Acoustic Pipe and the perfectly sealing earbuds cut off background noise significantly, delivering the same quality sound at lower volume and a longer battery life.

## For booming sound & power

The speaker driver is made of a composite mylar material for a highly sensitive yet powerful element that enables superior power output, delivers high-fidelity sound without any audible distortion.

## Carrying Case

This case is the most convenient way to look after your headphones and prevent cable tangling when not in use.

## For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, surely there is a pair that makes these Philips earphones fit your ear perfectly.
