- Nett weight: .053 kg
- Tare weight: .017 kg

Highlights

Ultra small efficient driver

This means you still enjoy the headphones' superb sound quality at lower volume settings, and also benefit from a longer battery life.

Passive noise isolation

The perfect, snug fit inside your ear stops unwanted background noise detracting from the pure pleasure of your favorite music. This means you still enjoy the headphones' superb sound quality at lower volume settings, and also benefit from a longer battery life.

Turbo Bass

The unique bass wave design 'turbo-charges' the low tones by directing them towards your ears. The result is a fantastic realistic and a more involved experience.

Neodymium magnets

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

24k Gold-plated plug

Rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.

Flexible rubber earhooks

The rubber earhooks provide a non-slip grip for an extra secure and comfortable fit, ensuring that the headphones remain in place for hours of comfort. Ideal for active use.

For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, surely there is a pair that makes these Philips earphones fit your ear perfectly.

Anti-pull design

Thanks to its unique design no matter what activities you participate in these headphones will remain securely and comfortably inside your ears. When the cable is pulled they grip tighter.

Mic friendly headphones

The cable length of these headphones is designed to optimize sound pick up from the microphone of your headset connector. It also optimizes overall cable length of these headphones combined with a headset connector. Headset connectors allow the use of standard headphones (without a mic and with a standard 3.5mm headphones plug) with a mobile phone. They often come with mobile phones but can also be purchased separately. For most mobile phone brands Philips SHH1XXX headset connectors are available. It also optimizes overall cable length to the mobile phone.

Made for Nokia XpressMusic

This product has been designed for use with Nokia XpressMusic phones. Extensive testing with these phones make sure you will get the best out of your phone in combination with this Philips product.
