- Extension cable: 1.2 m

Packaging dimensions

- Gross weight: .073 kg
- Nett weight: .009 kg
- Tare weight: .064 kg
- Packaging dimensions (W x H x D): 10.2 x 22 x 3.5 cm

Outer Carton

- Outer carton (L x W x H): 57 x 50.5 x 58.8 cm
- Gross weight: 12.516 kg
- Nett weight: .864 kg
- Tare weight: 11.652 kg

Inner Carton

- Gross weight: .703 kg
- Nett weight: .054 kg
- Inner carton (L x W x H): 27.6 x 24.3 x 14 cm
- Tare weight: .649 kg

Highlights

Super soft rubber caps

The ultra soft rubber material on the rubber caps are sensational to the touch and adapts effortlessly to your ear. In-ear headphones have never been this comfortable.

For most directional sound

Angled Acoustic Pipe is designed according to the curvature of the human ear canal so that soundwaves from the speaker are directed precisely to your ear drum with the highest definition

For long-lasting comfort

The ear caps are made of extra soft silicon material which is sensational to the touch and fits effortlessly into your ear. They feel so good that you simply don't want to take them off.

For a snug and natural fit

Angled Acoustic Pipe is ergonomically designed according to the anatomy of the human ear canal. It fits in the ear so snugly and comfortably that you can put it on and simply forget about it.

For best sound at low volume

You don't have to turn up the volume in noisy places anymore. Angled Acoustic Pipe and the perfectly sealing earbuds cut off background noise significantly, delivering the same quality sound at lower volume and a longer battery life.

Provides extra cable length

With the extra length provided by the extension cord, you have more freedom to move around without carrying your audio source. You can also customize the cable length according to your specific needs.

Neatly stores headphones away

This sumptuous little zip pouch not only looks hip, but also stores your headphones and cable neatly when they're not in use.

reproduce wide frequency range

Acoustically tuned speaker drivers are carefully designed to reproduce the widest possible frequency range in any recording, delivering the deepest rich bass and crystal clear treble in every piece of music you listen to

For deepest and richest bass

Turbo Bass air vents allow air movement for high-fidelity reproduction of the deepest and richest bass.

Mic friendly headphones

The cable length of these headphones is designed to optimize sound pick up from the microphone of your headset connector. It also optimizes overall cable length of these headphones combined with a headset connector. Headset connectors allow the use of standard headphones (without a mic and with a standard 3.5mm headphones plug) with a mobile phone. They often come with mobile phones but can also be purchased separately. For most mobile phone brands Philips SHH1XXX headset connectors are available. It also optimizes overall cable length to the mobile phone.

Made for Nokia XpressMusic

This product has been designed for use with Nokia XpressMusic phones. Extensive testing with these phones make sure you will get the best out of your phone in combination with this Philips product.
