- CRT stand
- LCD clamp
- Laptop clamp

Highlights

SVGA snapshot resolution

The SVGA resolution of your snapshots ensures sharp images for use in documents, webpages and e-mails.

30 frames per second video

Sit back and enjoy superior viewing with 30 frames per second video. This gives you smoother video images and a better all-round video-chatting experience.

Digital zoom

Zoom in and out to get the perfect framing for any image - all digitally so you don't have to touch the webcam or lens.

Built-in digital microphone

The built-in digital microphone allows you to talk naturally and freely or to add sound to a video clip recording.

Works with all IM services

Add video to Yahoo!, MSN and AOL Messenger. This PC Camera also works with Windows Messenger and NetMeeting.

Automatic face tracking

The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You stay in the center of the image even if you move during a video conference. It gives you the freedom to express yourself and converse naturally.

Multimedia headset included

Included with your webcam is a Philips multimedia headset. The head mic ensures optimum sound quality and comfortable use.
