# Highlights

## Phone line protection

These connectors accommodate an RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

## 1-line splitter

These connectors route the telephone line through the surge protector and split the line to allow two devices to be connected. It offers the convenience of leaving two devices connected constantly even though they may not be used simultaneously

## 40 dB EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data. The higher the dB rating the better the noise reduction.

## \$150,000 equipment warranty

Protects your connected equipment for the life of the product.

## 5 flexible outlets

Five outlets on separate cords that are all adapter spaced accommodate multiple devices without crowding.

## Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

## Power blocker

This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present
